book places

The Department of Employment Affairs and Social Protection supports this project as part of its funding initiative for the UN Day for the Eradication of Poverty

There are many Felting cooperatives around the world (Mongolia, Peru, Kazakhstan, Kirgizstan, Nepal, Afghanistan, Iraqi, Syria etc) People in these countries have tried to overcome poverty with this ancient yet easy to make type of applied art. They have formed groups, to make different products from wool such as rugs, hats, scarves, shoes. Felting is a way to learn from each other, be united, gain knowledge, make friends, be in a good mood, and improve self-esteem.

At the fashion show event will run a sideshow highlighting these projects and raise awareness of the particular poverty facing the different groups.

Thus this project will demonstrate our unity and support for felting cooperatives around the world who are trying to overcome poverty with their work

Please join us at this FREE event to find out how easy it is to create fantastic garments and to find out about getting involved in more local felting projects.
